Flood Assistance Alert #97-14 provided the allocation of the approved \$25 million award for the Flood assistance Project. It also explained that the Department of Labor (DOL) is continuing to review the request for additional funds. A response is being put together that will answer questions that DOL had regarding the application for the additional funds.

Although operators previously submitted plans that reflected additional funding needs, we want to again ask you if there is need to revise your plans to either increase or decrease the amount of funding requested. Since there has now been time for everyone to have conducted a comprehensive assessment of the damages caused by the storms and subsequent flooding, hopefully in-depth reviews and analyses have been done to attain complete true assessments of the total needs. In order for us to have accurate information of your needs, please fill out the attached matrix and return it to us as soon as possible and no later than close of business on Friday, April 11, 1997. Attachment #2 provides each operator with the allocation distribution plan of the \$25 and \$54 million.

Please refer any questions regarding this matter to Luis Hermosillo at (916) 654-5416 or Laine Hendra-Aldrich at (916) 654-5595.
